Subject: DRAFT NORWEGIAN NMA RESPONSE TO ETS RELATED
PORTIONS OF THE MINISTRY OF SOCIAL AFFAIRS' PROPOSAL
TO AMEND THE TOBACCO ACT.

Please find attached a draft response to the proposed amendments to Section 6 of the Tobacco Health Hazards Act - Protection Against Passive Smoking. It is my understanding that Magnus will incorporate the attached into the Norwegian NMA's overall draft response to the Ministry's proposal to amend various sections of the Tobacco Act.

I tried to follow the guidelines set forth in Mr. Falck's July 9 three page memo outlining the desired "main elements" of the industry's response. I did not receive a copy of the results of the attitude survey on public smoking mentioned in Section 6.5.1 of the Ministry's proposal; therefore, someone with that information needs to decide if it requires comment in the NMA draft response.

My draft is intended only as a starting point. I will be glad to draft any additional sections to address points that may have been overlooked.

Best regards.

Tony Andrade
